Wealth Iduwe

A frontend developer with +1year experience in building interactive and responsive user-interfaces for optimal user experience.

I've worked on several individual & team projects, which had exposed me to industry-related frontend tasks, such as consuming a third-party restAPI with a (mock backend: json server or a real api having end-points), making GET, POST, PUT and DELETE requests, implementing UI designs with responsiveness across all device break points.

I have also untaken paid courses on popular platforms such a udemy, pluralsight,ustacky for regular upskill in frontend development.

I write clean, readable, reusable and scalable javascript codes with strict compliance to best practices. With my vast knowledge of CSS I can implemement pixel-perfect UI designs with a great deal of responsiveness.

I'm teachable, hard-working an avid-learner who is loving React daily. Competencies: JavaScript, ReactJs, Tailwind CSS, git command lines.
